

COVID-19 Symptoms

According to the Centers for Disease Control and Prevention (CDC), symptoms can range from mild to severe and appear 2 to 14 days after the person was exposed to the virus that causes COVID-19. These are the possible symptoms highlighted by the CDC.

- Cough
- Fever (99°F or above))
- Chills
- Feeling shortness of breath or difficulty breathing
- Fatigue
- Muscle pain
- Headache
- Sore throat pain
- New loss of taste or smell
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

This list does not include all possible symptoms. Other less common symptoms have been reported. UCP-OC will continue to update this list under the guidance of the CDC.
